Please join us on April 25th for our Blood Club Event
Featuring our Special Guest Speaker, Marshall Mazepa, MD
Tailoring Therapy for TTP in the Caplacizumab Era

Dr. Mazepa completed his training in internal medicine at the University of Wisconsin and fellowships in Hematology/Oncology and Blood Bank/Transfusion Medicine at the University of North Carolina, Chapel Hill before moving to a position as an Assistant Professor at the University of Minnesota Medical School.

His primary clinical work is in non-malignant hematology with special interest in treatment of thrombotic microangiopathies, autoimmune hematologic disorders, and disorders of hemostasis and thrombosis. He is a clinical and translational researcher, with a research interest in thrombotic microangiopathies, and a focus in acquired TTP in particular. He co-founded and co-directs the US Thrombotic Microangiopathies (USTMA) Consortium, which includes 15 large US referral centers, with the goal of improving outcomes for patients with these rare diseases.
