Genetic Testing in Clinical Nephrology

Dr. Mark Paller, MD, MS

Provided by University of Minnesota

Objectives (3):

1. To understand how genetic testing can be used to diagnose kidney diseases.
2. To understand how genetic testing can be used to predict kidney disease prognosis and to risk profile.
3. To appreciate how genetic testing can be useful in selecting drug therapy and in determining correct drug dosage.

Accreditation Statement
In support of improving patient care, University of Minnesota, Interprofessional Continuing Education is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

Credit Designation Statements

American Medical Association (AMA)
The University of Minnesota, Interprofessional Continuing Education designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Other Healthcare Professionals
Other healthcare professionals who participate in this CE activity may submit their statement of participation to their appropriate accrediting organizations or state boards for consideration of credit. The participant is responsible for determining whether this activity meets the requirements for acceptable continuing education.
